

VOTE NOW

OVERVIEW

VOTE NOW is the world's most-innovative website for listing and voting crypto assets. Its mission is to expand crypto adoption, and help new investors find their next potential gem.

VOTE NOW uses unique and game-changing features to be ahead of the 120B low-market cap crypto market. It supports multiple blockchain networks and operates on a large scale throughout the world with a great amount of daily users interacting with the application.

VOTE NOW can help retail investors discover the latest NFTs, community and DeFi projects, see what's trending and explore active Airdrops through its innovative services like Upvotes, Airdrops and a NFT marketplace.

Market Size Opportunity

\$119,278,334,913

Total Market Cap of Cryptocurrencies with less than 1B Cap

Unique Selling Proposition

Price Charts

VOTE NOW offers real time price charts and useful indicators like the last hour price change, last 24 hours price change, minimum and maximum price in the last 24 hours. It also offers token indicators like the burned, circulating and total supply of the tokens..

Airdrops

The platform manages the organization of crypto airdrops. It provides quality airdrops from the most recent crypto projects. Users can navigate its list of current, upcoming, and closed airdrops. It's a great chance for the users to earn coins without any risk.

NFTs

VOTE NOW's NFT Marketplace brings together artists, creators, and crypto enthusiasts on a single platform to buy, sell and discover rare digital items and crypto collectibles. **VOTE NOW** contains a unique collection of masterpieces created by artists around the globe.

Unique Selling Proposition

UpVote

VOTE NOW offers real time Voting charts and useful indicators like

- Verified contract code
- Owner Privileges
- StaySAFU scan
- Auto rug Check
- Bubblemap

Portfolio

The portfolio tracker allows users to watch profits, losses and portfolio valuation with an easy-to-use platform. This allows retail investors to make more informed decisions about which projects to invest in for a balanced crypto portfolio.

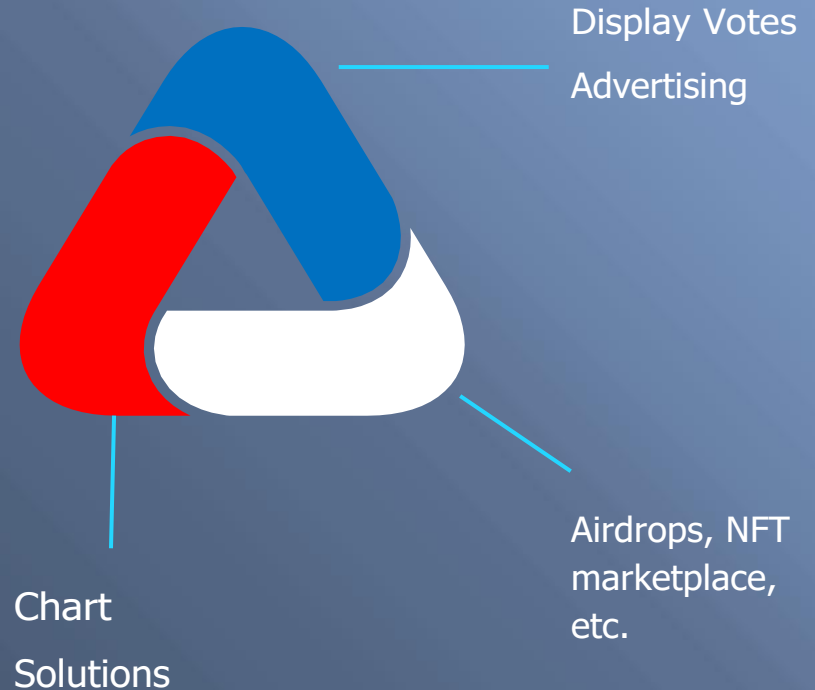

Blog / Newsletter

VOTE NOW is covering the latest cryptocurrency news, crypto trading, investment and information around the world. Its first priority is to spread the D.Y.O.R. principals, so it provides guides on how to investigate, buy and track cryptocurrency assets.

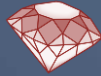

Business Model

VOTE NOW business model is using display advertising, auditing services and a variety of innovative offerings like airdrops or a NFT marketplace to generate revenue.

VOTE NOW is leveraging its high-traffic website and the in-house expertise of its security experts to bring high potential new crypto projects to the market.

Current Growth

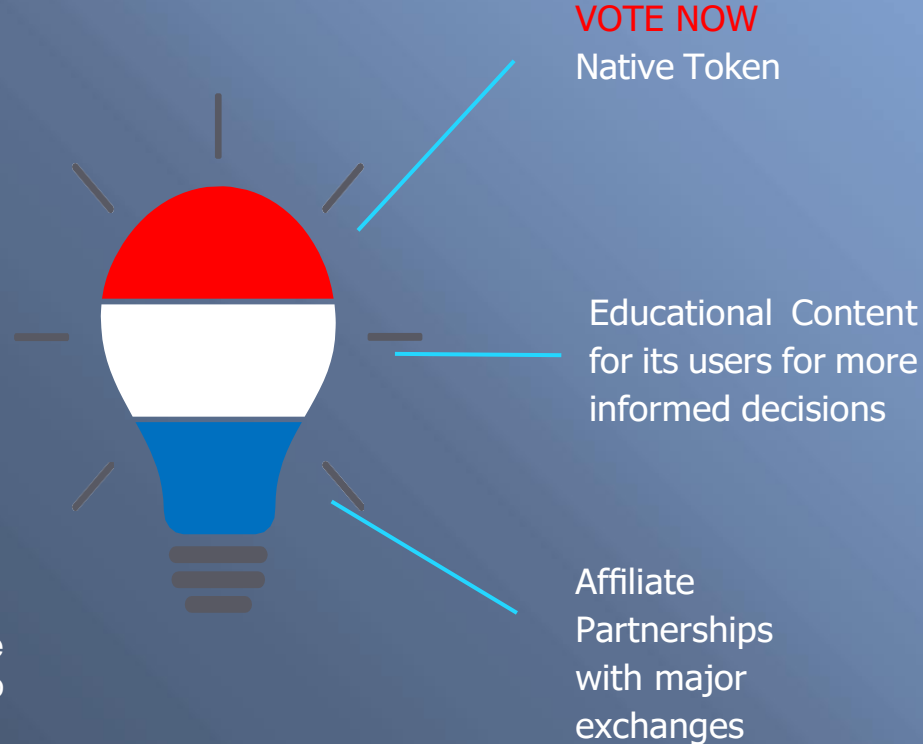

Growth Opportunities

VOTE NOW aims to stay true to its mission and become the leading website for helping new investors become familiar with new crypto tokens and discover new investment opportunities.

VOTE NOW will be launching its native token **[VOTE]** that will allow users to get access to exclusive NFT launches, exclusive content and early access to new features.

[VOTE] Token holders will receive priority service and purchasing services with **[VOTE]** will be discounted. The tokens used are burned manually by the team in order to intervene in a deflationary manner and thus force an increase in value.

VOTE NOW Token [VOTE]

Real Use

NFTs, Voting, Portfolio, Airdrops, Price Charts. **VOTE NOW** holders will get benefits and discounts from all of its services.

FAQs

FAQs

- How do I buy Vote Now's Token?

VOTE NOW will be launching its token in the Binance Smart Chain network(BSC) as a presale on 15th of April. You can find instructions on how to buy the token here:

- Pinksale: <https://www.pinksale.finance/launchpads?chain=BSC>

- What slippage should I use?

Slippage is the difference between the expected price of a trade and the executed price of that trade. When a new token is launched the price volatility can be quite high, so is hard to predict the exact number. We've seen that slippage in the range of 5% should work for most traders.

FAQs

- **What do we know about the team?**

The team consists from 15 experienced blockchain developers and marketers who are based in various places around the world varying from UK, USA, Indonesia and more.

- **What makes **VOTE NOW** token a good investment?**

VOTE NOW is a solid 2-month project that has more than over 50K registered users. Due its unique position in the market **VOTE NOW** team has analysed thousands of token launches. This has provided insights on what makes a crypto token successful and what it takes a project to hundreds of millions in market cap. The team will be using these insights and the successful marketing tactics used to launch its own native token and take a step closer to realising its vision.

FAQs

- **What is **VOTENOW**'s marketing strategy?**

VOTE NOW has amassed a huge user base of more than 50.000users over the past 2 months. It will be using a mix of strategic ads on Facebook Groups, twitter and subreddits. It will also be launching NFT giveaways, airdrops and email marketing to raise awareness.

Having analysed thousands of token launches and marketing strategies from other projects **VOTE NOW** will be using a marketing mix that will bringthe best ROI to its investors.

- **Is my investment **SAFU**?**
